

**HELP
SOMEONE
WHO IS
OVERDOSING.**

**DON'T RUN.
CALL 911.**

Warning Signs of an Opioid Overdose

- Confused, or slow to respond
- Slow or shallow breathing
- Extreme sleepiness; cannot be awakened
- Nausea and vomiting
- Pinpoint pupils
- Blue/purple fingernails or lips

If you think someone is overdosing, don't run.

Call 911 immediately.
